

# Funding Opportunities for Occupational/Physical Therapy & Sports Medicine

Sponsor	Grant/Program	Description	Deadline
American Hand Therapy Foundation (AHTF)	<a href="#">Burkhalter New Investigator Award for Clinical Research in Hand &amp; Upper Limb Rehabilitation</a>	Up to to \$15K to support scientific clinical research in the field of <b>hand and upper limb rehabilitation</b> . Experimental, non-experimental, pilot studies, quasi-experimental, measurement, or qualitative studies designed to advance the clinical practice of hand and upper extremity rehabilitation in categories identified by the AHTF research priorities will be considered.  *Other AHTF grants <a href="#">here</a> .	3/1/2023
Academy of Orthopedic Physical Therapy	<a href="#">Small Grant Program</a>	The purpose of this grant program is to address the urgent need for clinical research in <b>orthopedic physical therapy</b> . Four funding areas: <ul style="list-style-type: none"> <li>• New Investigator</li> <li>• Unrestricted</li> <li>• Knowledge Translation</li> <li>• Postdoctoral Career Development</li> </ul>	3/15/2023
Academy of Pediatric Physical Therapy	<a href="#">Pediatric Research Grants</a>	Advancement of research and translation of evidence into <b>pediatric physical therapy</b> .	6/1/2023
American Medical Society for Sports Medicine	<a href="#">AMSSM Minority Research Grant</a>	Provide research opportunities specifically for historically underrepresented minorities in biomedical research to advance representation across diverse backgrounds and promote health equity in <b>sports medicine research</b> .	6/9/2023
National Operating Committee on Standards for Athletic Equipment	<a href="#">Grant</a>	Up to \$50K for <b>sports medicine research</b> in the following areas: Studies that inform existing helmet safety standards; Investigators developing youth helmet standards; The mechanical and biological mechanisms of injury and recovery; and The application of developed tools and equipment for injury prevention.	6/30/2023
Partnership for Clean Competition	<a href="#">Grants</a>	With an emphasis on original work that focuses on improving existing analytical methods for detecting particular drugs, developing new analytical methods to test for substances not currently detectable, and discovering cost-effective approaches for <b>testing widely abused substances across all levels of sport</b> .	Pre-application due 7/1/2023  (additional deadlines: 11/1/23, 2/15/24)

CDC	<a href="#">Occupational Safety and Health Training Project Grants (T03)</a>	NIOSH / CDC invites grant applications for Training Project Grants (TPGs) that are focused on <b>occupational safety and health training</b> . The majority of TPGs are in academic institutions and provide high quality undergraduate, graduate, and post-graduate training in a variety of occupational safety and health (OSH) and allied disciplines. NIOSH also funds non-academic TPGs to meet specific training needs of targeted populations including firefighters, commercial fishermen and OSH interns.	LOI due 9/19/2023  (full app due 10/24/23)
CDC	<a href="#">Occupational Safety and Health Education and Research Centers (T42)</a>	Invites grant applications for Education and Research Centers (ERCs) that are focused on occupational safety and health training. ERCs are academic institutions that provide high-quality interdisciplinary graduate and post-graduate training, research training, continuing education, and outreach in the core occupational safety and health disciplines of industrial hygiene, occupational health nursing, occupational medicine, and occupational safety, as well as allied disciplines. <b>Research and research training</b> are integral components of ERCs, with ERC faculty and NIOSH trainees conducting research on issues related to the NIOSH National Occupational Research Agenda (NORA) and emerging issues to advance the field of occupational safety and health.	LOI due 30 days prior to full app  (full app due 10/24/23)
American Medical Society for Sports Medicine	<a href="#">Young Investigator</a>	The purpose of these awards is to support research projects initiated by AMSSM members 5 years or less out of fellowship. Research grant proposals that investigate issues within the broad discipline of <b>sports medicine</b> , including clinical practice, injury prevention and rehabilitation, basic science, epidemiology and education are welcomed.	10/6/2023
Ultra-Endurance Sports Science & Medicine	<a href="#">Ultra-Endurance Sports Science &amp; Medicine Grant Program</a>	Supports basic, applied, clinical and behavioral research associated with <b>ultra-endurance sports</b> via grants up to \$10,000.	11/1/2023
