

Funding Opportunities for Virology & Infectious Disease

Sponsor	Grant/Program	Description	Deadline
SAEMF	Emerging Infectious Disease and Preparedness Grant	Seeks to support an ambitious program of acute care science in emerging infectious disease that may include diagnostics, patient and provider safety, intervention/therapeutics, disaster preparedness, or other relevant topic areas.	8/1/2023
NIH	Pathogenic Mechanisms influencing Blood Brain Barrier function in HIV and Substance Use Disorders (R01)	Supports research on the effects of HIV and addictive substances , acting independently or synergistically on blood brain barrier (BBB) structure and function and the involvement of these effects in HIV associated neuropathology.	8/11/2023
Gilead	Gilead Sciences Research Scholars Programs	Support basic and clinical research in the field of HIV , in North America and globally, conducted by early career investigators for a 2-year period, up to \$180,000.	9/16/2023
AHRQ	Large Health Services Research Demonstration and Dissemination Projects for Prevention of Healthcare-Associated Infections	Grant applications for funding to conduct Large Health Services Research Demonstration and Dissemination Projects (R18) that propose to address strategies and approaches for prevention and reduction of Healthcare-Associated Infections .	9/25/2023 (additional deadlines: 1/25/24, 5/25/24)
NSF	Ecology and Evolution of Infectious Diseases	Supports research on the ecological, evolutionary, organismal, and social drivers that influence the transmission dynamics of infectious diseases . The central theme of submitted projects must be the quantitative, mathematical, or computational understanding of pathogen transmission dynamics.	11/15/2023
NIH	NOSI: Targeting the Pathogen within the Arthropod Vector	Invites applications to stimulate multidisciplinary research to better understand pathogen/vector interactions to identify approaches to prevent pathogen transmission to the vertebrate host.	Varies, see link
USAID	Frontier Health Markets APS	Aims to help achieve U.S. Government (USG) health priorities and commitments around the globe , specifically related to preventing child and maternal deaths, controlling the HIV/AIDS epidemic, and combating infectious diseases.	Various through 2/24/2028

The Campbell Foundation	Grants	\$10K-\$100K research grants toward discovering better <i>treatments for people living with HIV/AIDS.</i>	LOIs due annually in Jan, Apr, July, & Oct
