Funding Alert

Funding Opportunities for Language & Communications

Sponsor	Grant/Program	Description	Deadline
NEH	Dynamic Language Infrastructure	Goal to develop and advance scientific and scholarly knowledge concerning **endangered human languages**. Prioritize scholarly analysis and publication, including but not limited to lexicons, grammars, databases, peer-reviewed articles, and monographs. Awards also support fieldwork and other activities relevant to digital recording, documenting, and sustainable archiving of endangered languages. *For projects involving collaborating scholars, see the DLI-DEL program.*	9/13/2023
NIH	Innovative Approaches to Studying Cancer Communication in the New Information Ecosystem (R21)	Research projects in three distinct domains related to **cancer communication**: 1) utility and application of new cancer communication surveillance approaches; 2) development and testing of rapid cancer communication pilot interventions; and 3) development and testing of multilevel cancer communication models.	10/16/2023 *(additional deadlines: 2/16/24, 6/16/24)*
NSF	Communications and Information Foundations (CIF) program	As part of the Computer and Information Science and Engineering (CISE): Core Programs, supports foundational research that addresses the theoretical underpinnings of information acquisition, transmission, and	Rolling for SMALL Projects MEDIUM & OAC Core

		processing in **communications and information processing systems**.	Projects due 10/23/2023
Endangered Languages Documentation Programme	[Grant](#)	Provides grants for the documentation of endangered languages. Two funding opportunities: - [Documentation Grants](#): Grants for the linguistic documentation of endangered languages worldwide. - [Legacy Material Grants](#): Support the digitization and archiving of legacy materials which are a rich resource for the documentation of the world's linguistic diversity and are in danger of being lost.	10/31/2023
NEH	[Scholarly Editions and Scholarly Translations](#)	Support collaborative teams who are **editing, annotating, and translating foundational humanities texts** that are vital to scholarship but are currently inaccessible or only available in inadequate editions or translations.	11/29/2023
NSF	[Linguistics Program](#)	Supports **research on human language** — encompassing investigations of the properties of individual human languages and natural language in general — and the intersections of linguistics with cognition, society and other areas of science.	1/15/2024 *(additional deadline: 7/15/24)*
Sloan Foundation	[Public Understanding of Science, Technology & Economics](#)	The program's primary aim is to build bridges between the two cultures of science and the humanities and to develop a common language so that they can better understand and speak to one another--and ultimately to grasp that they belong to a single common culture. The Foundation has established a nationwide strategy that focuses on books, theater, film, television, radio, and new media to commission, develop, produce, and distribute new work **mainstreaming science and technology for the lay public**.	Rolling
Sloan Foundation	[Scholarly Communication](#)	Empower researchers by supporting the development and adoption of new resources for managing the increasingly diverse array of **digital communication channels**, enabling scientists to more effectively locate relevant research, network with other researchers, and disseminate their work to the scientific community and the public.
