Funding Opportunities for Substance Use & Mental Health

Sponsor	Grant/Program	Description	Deadline
NIH	Addressing Racial Equity in Substance Use and Addiction Outcomes Through Community-Engaged Research at Minority Serving Institutions (R01)	Applications to conduct research that will have a major impact in identifying, developing, implementing, or testing strategies to improve outcomes related to substance misuse , with a goal of preventing, reducing, or eliminating disparities in racial and ethnic minority populations in substance use, addiction, and related health consequences, including HIV.	11/14/2023 <i>(additional deadline: 11/14/24)</i>
American Foundation for Suicide Prevention	Grants	Three research grant types: <ul style="list-style-type: none"> • Early Career Researcher Innovation Grants: up to \$140K over 2 years; awarded to investigators at or below the level of assistant professor • Distinguished Investigator Innovation Grants: up to \$150K over 2 years; awarded to investigators at the level of associate professor or higher with an established record of research and publications • Standard Research Innovation Grants: 	11/15/2023

		up to \$125K over 2 years; awarded to individual investigators at any level	
Center for HIV and Research in Mental Health (CHARM)	CHARM EIS Core Microgrant	\$5,000 microgrants for early-career investigators to support the development of partnerships between investigators and implementers to lay the groundwork for future equitable implementation research in HIV and mental health .	11/27/2023
NCAA	Innovations in Research and Practice Grant Program	Supports research and data-driven pilot projects designed to enhance student-athlete psychosocial well-being and mental health . Research topics may include, but are not limited to, managing transitions, identity development, stress management, substance use, bystander intervention, cultivating healthy relationships, career exploration and sport exit strategies.	<i>Anticipated January 2024</i>
NIH	Mechanism for Time-Sensitive Drug Abuse Research (R21)	Supports pilot, feasibility or exploratory research in priority areas in substance use epidemiology, prevention, and health services. To be responsive, it should be clear that the knowledge gained from the proposed study is time-sensitive and that an expedited review and funding are required in order for the scientific question to be answered.	1/11/2024 <i>(additional deadlines: 5/3/24, 9/8/24)</i>
NIH	Alcohol and Other Substance Use Research Education Programs for Health Professionals (R25)	Goal to support educational outreach activities that disseminate biomedical, behavioral, and clinical research findings from research on alcohol and other substance use to health professionals engaged in direct patient care and clinical service delivery.	1/25/2024 <i>(additional deadlines: 5/25/24, 9/25/24)</i>
National Psoriasis Foundation	More than Skin Deep: Mental Health Grant	Seeking grant applications from researchers interested in conducting projects focused on mental health in psoriatic disease . The goal of this award is to support this area of unmet need in the psoriatic disease community by funding research focused on investigating the effects of psoriatic disease on mental health, as well as interventions for addressing this comorbidity.	2/1/2024
Partnership for Clean Competition	Grants	For work that focuses on improving existing analytical methods for detecting particular drugs, developing new analytical methods to test for substances not currently detectable, and discovering cost-effective approaches for testing widely abused substances across all levels of sport .	Pre-application due 2/1/2024 <i>(additional deadline: 8/1/24)</i>

NIH	NIMH Short Courses for Mental Health Related Research (R25)	Applications will propose to develop, implement and evaluate creative and innovative short courses that will provide education in state-of-the-art research skills (e.g., tools, techniques, approaches), spanning from basic neuroscience, human genetics/genomics and translational research to interventions and mental health services research across the lifespan.	5/25/2024
John W. Brick Mental Health Foundation	Grants	Supports scientific research and programs that pilot test or demonstrate the effectiveness of integrating salutogenic approaches into treating mental illness and promoting mental wellness.	<i>Rolling LOI</i>
American Psychological Foundation	Grants (<i>see Description for links</i>)	<p>Several psychology grants across many topical areas ranging from \$15K-22.5K:</p> <ul style="list-style-type: none"> • Marian R. Stuart Grant: up to \$20K to further the research, practice, or education of an early career psychologist on the connection between mental and physical health • John and Polly Sparks Early Career Grant for Psychologists Investigating Serious Emotional Disturbance (SED): up to \$22K to support early career psychologists conducting research in the area of early intervention and treatment for serious emotional disturbance in children • APF Walter Katkovsky Research Grants: up to \$22.5K to support research on the general topic of psychotherapy • The Springfield Research Fund Grants: up to \$21K supports research of contemporary LGBTQIA+ issues in an effort to dispel stereotypes and other negative information that leads to prejudice and discrimination • Wayne F. Placek Grants: up to \$15K for research to increase the general public's understanding of homosexuality and sexual orientation, and to alleviate the stress that lesbian women, gay men, bisexual women, bisexual men, and transgender individuals experience in this and future civilizations 	<i>Deadlines vary (click links)</i>
